function, that is entertaining and at the same time benefit readers. Literature entertaining by presenting the beauty, give meaning to life (death, misery, and excitement) and the means to convey the message about the truth, about what is good and bad. So we can get the touch of our life through literature. Literature is a term used to describe written or spoken material. “Literature” is used to describe anything from creative writing to more technical or scientific works, but the term is most commonly used to refer to works of the creative imagination, including works of poetry, drama, fiction, and non-fiction. Literature represents a language or a people: culture and tradition. One of literary work which will be discussed in this thesis is music or song.

Music is part of people’s life. Every people has listened music in their life. Songs serves felling and express their common emotions. Singing appears to be a popular activity in many parts of the world. In Indonesian, western songs appear to gain popularity. This condition can be seen by the increasing chart number of western musicians in our country. Musical concept is important because they determine how music is appreciated and evaluated in a particular society. Ighile (2012) stated that Knowledge of musical concepts, it should be stressed, is not synonymous with verbalization and actualization. It means that music influence life.

Lyric come from Ancient Greece has means a piece for single voice, to be accompanied by the lyre. The song lyric is specifically intended for singing. This intention affects diction, content and stanza form. Graham stated that the song lyric is particularly unified and simple. A tune has its own emotional character, and it is words will need to be of words and music. Lyric can express judgments about lifestyles, values, and appearances. Than, song can express attitudes and values. Every song’s lyric has message and suggestion for the listeners, whether good or bad. It depends on the kind of the music and on the listener. Lyrics are written as a form of the interaction between the writer and the listeners. In song can be cited as a media to transfer message, or expressions in order to achieve the pure feeling, joyful, aspirations, or ambitions. In addition, lyric is a part of literary element. Music and literary works are very useful since they have various values such as moral, religious, and sociological values. Literature is also one of media to show some of the meaning.

The terms of moral and ethics come from latin and Greek respectively mores and ethos. Louis and Pojman stated that moral means perspective on how an attitude good or bad. Deriving their meaning from the idea of custom. It undertakes to analyze concepts and terms such as right, wrong, permissible, ought, good and evil in their moral contexts.

The Islamic framework of good moral emphasizes on several values of doing good deeds to other individuals or groups. All of these qualities are presented Islamic morals related in dealing with others, which are referred here to Islamic morality. Islamic teachings encourage Muslims to be truthful, and trustworthy. Benninga S. J. stated that every value will get quality if it has relation with other values. For example, Honesty is example of moral values; this value has no meaning if it does not be applied with other values. Economic Value is relation of human and thing.

According to Islam there are five basic values for humanity that must be safeguarded. Akgunduz stated that norms include all activities and things that are essential for preserving these five basic values at the lowest level or the barest minimum for an acceptable

level of living. These basic values, therefore, should include the ability to perform moral responsibilities, the protection of life, securing food, clothing and shelter, education, the right to earn living, to set up a family. This level is sustenance: one has enough to live but not necessarily to enjoy added comforts. Islam believes that a human being cannot live without these basic values. Individuals and states should protect, or at least, respect these basic values.

One kind religion singer is Semi Yusuf. English and Arabic are used as the language of the songs. He likes to convey, advice and pilgrim message through this songs. His songs are known by local and international society and become interesting. As a singer he is included as success singer sending values and love. Now, Semi Yusuf has created five albums. There are Al-Mu'allim, My Ummah, Wherever You Are, Salaam and The Centre.

Abbas (2013: 4) stated that from Islamic perspective, quality is a total concept. It encompasses not only relationships among human beings but also between human beings and Allâh SWT. The basic quality of work in Islam is based upon both slavery and khaliphip values, both of which are harmoniously integrated. In Islam, ihsan encompasses sincerity and itqan. Entrepreneurs must be sincere in their duties (for the sake of Allâh SWT). Profit is not the ultimate aim. Itqan means excellence and is the benchmark. Thus, the combination of sincere and itqan is a positive quality in Islam. Moral values are things held to be right or wrong or desirable or undesirable. According to Nawawi (2011: 92) in Islamic concept there are eight good personalities that appropriate with moral Qur'an and this discussion. Those are: Amanah (trust), Iman (Faithful), Patient, Tawakal (Trust to God), Honest, Gratitude, Optimistic, Repentance. Those values are applied in analysis of Semi Yusuf's songs.

The singer tells about gratitude and happiness while celebrating Eid. In Islam, Eid celebration is being waited by every Muslim. Muslim makes Eid celebration because as the day of victory. It is very special that every people back to be pure. The third stanza, a writer found the moral values about thanks to God. Welcome the celebration Eid happily. In the third stanza stated on “their faces full of laughter” in line 3 and “Let us rejoice indeed” in line 5, it means that a face is full of laughter, joy, love and happiness while celebrating Eid. The highway is filled with crowds the beauty adorn Eid celebration. In line “La ilahailla Allah, Muhammad rasullaah, La ilahailla Allah, Muhammad Rasulullah, ‘alayhisalatullah, alayhisalatullah” means thanks to God. Sholawat to prophet Muhammad to obtain a form of intercession and compassion to the prophet Muhammad SAW and Allah SWT. Allah will give some rewards for Muslims who want to give forgiveness, as stated in the Holy Al Qur’an.

In fourth stanza, the writer found a moral value about helpful. In line 1 and 2 tell about “people are giving charity and helping reviews those in needs”. It means that need to help each other. To help is written in holy Al-Qur’an as God saying “dan tolong menolongkah kamu dalam (mengerjakan) kebijakan dan takwa, dan jangalah kamu berbuat dosa dan dan pelanggaran dan bertakwalah kamu kepada Allah, sesungguhnya Allah amat berat siksa-Nya” (Q.S. Al-Maidah: 2).

It is distinctly the attitude of helping each other to another one, is highly recommended. Helping indeed is part of the teachings of Islam. Islam requires everyone to help each other to someone that more needy. We must accustom ourselves to help each other in everyday life.

The last stanza found moral values about forgiveness. In line 2 “all hatred is buried”. It means that all the blame should be forgotten. We are as Muslims should forgive each other. And it is a command from God that we must use in the life of celebrating Eid obligatory.

The singer tells about thanks to God and love to the prophet Muhammad SAW as a prophet. The sixth stanza, the writer found moral value in line 1, 2 and 3 “He’s a mercy for mankind, His speech was gentle and kind, He summoned people to Allah”. It means that invite mankind to give thanks to God. Invite to do
good things as an expression of our gratitude to God. We are grateful that God will increase the pleasure that he has given. We shall be grateful that we got more reward from Him. Gratitude in daily life is necessary to get a quiet life.

According to Ibn ‘Alan, in the book Al-Falahin argument, thanks giving is a servant management for various favors which God gave him to reach his love. So, be grateful for all favors. Nawawi said that starting from the life that has been given to us through everything that is given while live in the world, best managed, in accordance with the favors are not managed in accordance with his demand, so please bear the consequences.  

We live in the world with the existence not to be useless. However, it should hear the word of God that has turned: “I did not create the jinn and men but that they (men) worship me.”( Az-Zariyat: 56 ). It is clear that we must understand, accept, and realize that this life just a while, be grateful as well as possible, by worship to Him. Worship in the broadest sense.  

The second moral value is about love. Love can be defined into several definitions. Love is for God. People should have love that God commanded in our daily life. In the eighth stanza on line five stated that “Our love for him knows no bounds”. Love that God has given to us has no bounds in everyday life.  

In line nine, there is word” Oh Allah sends your blessings “. It shows that God will give his gift to his servant who will praise and love to Him and the Prophet Muhammad SAW as his Rosul. God gives us grace and He sends commands through the prophet Muhammad SAW in Hiro cave as proof.

Islam considers this very positive optimistic spirit; even against pessimistic attitude that often leads to despair, which in fact is often detrimental. The means Al Qur’an forbids us on pessimist, it means the opposite, and Qur’an advocated optimistic. In line “O My sons! Go ye and enquire about Joseph and His brother, and never give up hope of Allah. Soothing mercy: truly no one despairs of Allah. Soothing Mercy, except those who have no faith.”( Surah Yusuf : 87) and “He knows what penetrates into the earth and what emerges from it and what descends from the heaven and what ascends therein; and He is with you wherever

you are. And Allah, of what you do, is Seeing. (Qs. Al-hadid 57:4).

In eighth stanza line eight the word “Need you more than ever Ya Rasul ALLAH”. It means that hopes to achieve well-being in life. It will be better Faith and trust. As psychophysical creature, human beings in achieving prosperity of his life, not only need things that are material, but also need of security, peace, tranquility and safety. It can be achieved by implementing the perception of Allah, whether related to the soul and the heart. It can be said that a soul which is called faithful when the individual heart has entered with matter related to the dimension of faith, like the God, angel, prophets, His holy book and the final day. If those all has not been entered into the heart, for example, had been in the area of souls, the man has not been faith because the place of faith is in your heart.
